Comments:

King Mountain is a beautiful area for foot launched soaring that is enjoyed by many people. I first flew there when the eclipse occurred in 2017 and was awestruck by the spectacular views. Free flight activities have minimal impact on the terrain and the wildlife in that motor traffic is limited to a few roads and a few trips per day. Foot launched flying is all but silent and causes minimal impact on the other humans present as well. Please keep the area open for public recreation.
