Comments:

Hi, first thank you for all you to preserve the beauty of the great wilderness of this country. King mountain has long be regarded as one of the premiere hang gliding and paragliding sites in this nation. The beauty and amazement of this sport is second to none and many flying sites are quickly being lost to mining , private ownership and other encroachments. We ask that please consider keeping this amazing site available to fellow pilots as we enjoy the beauty of your state from our unique viewing platform.
