Comments:

I am the editor/pilot of the Cloud Street Gang Hang Gliding Club of Northern California and member of the USHPA. Several of our Club pilots have flown at King Mt. over the past 15 years. King Mt. is a unique and historic flying site with proven minimal impact on the environment. It is our 22 member club, request that the King Mt. flying site and access road be maintained in accordance with USFS Diverse Recreation National Policy. Hang Gliding is one of many Recreational Outings that need to be preserved in "Our National Forest". Thank You.

Jim Goebel - Club Editor, and Retired USFS Forester of 33 yrs.

p.s. You can do this.
