Comments:

Hello,

Please consider to exclude King Mountain launch area and its access roads for the new wilderness evaluation area. If the mountain were to be designated as a wilderness area, roads to launch would be closed and launching would be prohibited, likely ending pilots access to the site.

King Mountain has been a great flying site for hang gliders and paragliders for many years. I was fortunate to fly this awesome site a few years ago and I still have many pleasant memories about this beautiful area.

I hope you can consider so we don't lose this beautiful mountain and we can fly hang gliders and paragliders for many years to come.

Thanks for your time.

Kind regards

Vince Furrer, NC
