Comments:

King Mountain is one of the best free flight launch sites in the USA. There are precious few legal foot-launch flying sites in the USA. It is a shame that wilderness areas do not allow for free flight as there are no motors or 'mechanisms'. Ideally the wilderness act would be able to be changed to allow for free flight, but short of that, hopefully King Mountain can be preserved for launching hang gliders and paragliders. Please preserve Free Flight at King Mountain, ideally with road access.
