Comments:

Hello,

I'm a hang glider pilot that flies in the National Forests. They are a national treasure that has provided me so much enjoyment thru out the years. King Mountain is the premier flying site for Idaho. I would hate to lose access to it and it would hurt the local economy. People come from all over the world to fly there and there is no nearby replacement. Please keep our use in mind as you make plans to preserve this treasure.

Thanks

John Kerry
