Comments:

I am opposed to changes to the management of this forest. This forest is famous among the Free Flight enthusiasts all over our nation. Pilots and families come from great distance to fly there. I have made the trip from Los Angeles many times. It is important to keep the road system open for our use so we can access safe areas to begin our flights. Please keep the air space above the forest open to our silent gliders. Designating it as wilderness will be devastating to the cities and businesses that rely on the flying public for income. We love and respect the forest and we protect it so there is no need to declare it wilderness. Thank you.
