Comments:

Concerning the use of the King Mountain for foot launch flight activities. I would like to encourage the continuation of the site for that purpose in the formation of the upcoming review. Though I live in California look forward to being able to fly the site in the future as my skills improve. The loss of this site would have a significant impact on the variety of places to fly in the nation. The continuing loss of sites is a great concern of mine, thus my motivation to offer my opinion.
