Comments:

This is a very important flying site for me. I regularly make the trip and spend at least a week in the area flying several times a year. When I heard of the possibility of access to this mountain being restricted and limiting my ability to fly I was very concerned.

I fly a hang glider and have been flying for almost 40 years now, King Mountain is a very unique place to fly which is why I make my trip regularly to the site. I know of quite a few fellow pilots that also spend quite a bit of time at King Mountain flying and the thought of limited access or no access would be devastating to our sport.

Please take into account the incredible recreation that is experienced by so many pilots when you consider the of limiting access to this site.

Thank you very much for your time.
