Comments:

King Mountain and its associated HG and PG launch are absolute treasures in the free flight world. Hundred mile flights can be attained here soaring along the Lost River Range and the Lemhi Range. Designating this all wilderness area will only reduce the usefulness of these wonderful mountain ranges and do very little for their preservation. Leave these Ranges as they are for the enjoyment of all, and especially the soaring pilots whose impact on these ranges is minimal as they fly far above utilizing the strong lift created here. This is a very special flying destination for free flight pilots. Do not take it away from us. Sincerely, J. Speer.
