Comments:

Please allow continued access to king mt hang gliding and paragliding launches. It is a world famous glider flying site that allows access to the unique soaring conditions that only exist in a hand full of locations world wide. Please find a way to strike the balance to protect these lands without ending 40 years of continuous free flight history. Places like this are unique and important to our sport and our passion for this site runs very deep. Thank you for all you do to support us.
