Comments:

To Whom this May Concern,

While I am in full support of maintaining the ecology of the King Mountain area, the site has been a much respected and enjoyed flying area for paragliding in Idaho. It is a premiere site for which our state is known in the free flight world. To the extent that the access road to the launch affect the study or future, the community is happy to work with agencies to maintain regulations so long as the site and road remain open.

Please feel free to contact me with any questions. Thank you,

Randall Shane, PhD
