Comments:

As a hang gliding pilot and lover of nature I am very sadened to hear these type of site closures. I have met many hang gliding and paragliding pilots in my life and I can say that I have never seen a more caring and environment friendly group of people in any other sport or outdoor activity. These people literally risk their lives to get a birds eye view of the beautiful nature beneath their wings. Intrwilly hope this site is not closed out and that a better way us found to protect the nature this park possesses.
