Comments:

I would ask that access to the paragliding/hang gliding launch, landing, road access and airspace be left open for use. We as a group continue to lose flying sites all across the country to land development and to lose one in public forest is particularly bitter. We are a low impact community that tend to be very good stewards of the land. There are examples around the country of the Forest Service and our organizations working well together. I hope we can do that here.
