Comments:

Please consider retaining conditional access to the King Mountain hang glider launch to include vehicle access to the launch. This a widely utilized public benefit to the free flight community, which can be effectively self managed on a conditional basis without harm to the environment. While I am not residing in the immediate area, I do make several extended trip to the area each year and consider the access to the sight important. Develop a conditional use scenario that mitigates the Forrest Service concerns.

Thank You,  
Jay Granzella
