Comments:

I would love to see Idaho have more areas protected from development. I do believe designating more Wilderness in Idaho is beneficial for only but a few user groups specifically hikers and equestrian. Mt. Bikers are tired of watching more and more of their backyard shrink do to an outdated understanding the word mechanical. Loosing access to the Boulder White Clouds on a bike should of never happened. I don't want to see more areas disappear to Wilderness unless Bikes are allowed on existing trails. Invite bikers back in Wilderness areas and you will gain support and trail preservation volunteers. I believe everyone deserves the opportunity to enjoy Wilderness areas by hiking, biking or horseback. I support educating the user of the area not banning them.

Thank you in advance,  
Sean Stephens
