Sage-Grouse conservation plans

Dear U.S. Forest Service,

The Sage-Grouse experienced an extreme bottleneck in its population size before.

Now, with the species already low and in decline, the Trump administration wishes to allow acquisitive companies the right to encroach upon their breeding grounds.

For the sake of this iconic species, please do not allow these changes to the conservation plan that could devastate an already devastated population!

Sincerely,

Kathleen Petro

North Canton, OH 44720
