Comments:

My family spend as much time as we can legally riding Dirtbike's in our national forest land. We are extremely grateful for the land that we have to ride on. We don't want this riding areas to get smaller. There is already 100 of millions of acres that don't allow for off-road useage. In a world where our children grow up in front of screens. I want to continue the tradition of taking my family dirt biking and camping on national forest. That way I can teach them how to respect our land but also be able to enjoy it. This is public land to be shared and enjoyed by all. Please do not shut down more motorized riding areas.
