Comments:

I support allowing more snowmobile access and restoring access to Hylite and Bighorn areas that we lost 10 years ago. With every year, more people are getting out in the forest to recreate, and every year we are losing more places to be able to ride. With more snowmobiles, ATVs, motorcycles, and mountain bikes out there, we need to be able to spread out and have access to other areas. Especially areas that have always been accessible, then closed down.
