Comments:

I love the outdoors (as I'm sure you do as well) and spending it on the back of a snowmobile or a dirt bike is by far my favorite. Our access is becoming more and more limited; many often forgetting we enjoy access to wilderness area too. A majority of all Montanans' enjoy the outdoors as I do, and allowing access to the entire wilderness area would allow those that haven't found the love for the outdoors to find that passion and additionally, getting the younger generations involved in the fun activities Montana has to offer, such as snowmobiling and oversnow motorsports. The more people are involved in the outdoors the more they are willing to protect it and maintain it. Please accept my comments in support of reopening the entire wilderness study area. Thank you for the consideration.
