Comments:

keep all buffalo in the herd alive continually. i dont wan them killed. i also want no hunting, no grazing, no mining, no new roads, no burning, no chemicals, no trapping, no burning up the forest. it is clear that our gov agencies seem to

exist to attack our forests and national lands instead of spending their time protecting and preserving. 328 million americans own this land and they are not getting what they want fro this agency which is in attack mode for our national lands instead of preserve and protect mode. we want preserve and protect. we want vegetation protected with no logging either. this logging decimates an area. we want decen plans for our national lands instead of regarding them as a store to be picked clean for local pals. this is comment on this plan
