Comments:

i am very much in favor of strengthening alternative D in the custer gallatin forest plan revision #50185.wild buffalo need room to roam and their migration should not be impeded.also, their habitat needs to be connected across their buffalo range and should be expanded and improved.i feel strongly that the buffalo should be managed as wild animals and as such should be under the control of game and fish and not dept of agriculture.as such way too much emphasis on public lands is given to cattle and grazing and not enough on wildlife,(wild buffalo).wildlife,hunting,fishing,tourism,camping and recreation in our national parks and public lands bring in far more money than grazing and should be given top billing.cattle grazing is a loser for the taxpayers.thankyou
