Comments:

I am writing to oppose the POW LLA Project of the Tongas National Forest. I believe the public has been misled about this project. It is not about restoration of the forest but about timber harvest, approximately 235 million board feet of old-growth forest to be harvested over a fifteen year period. I feel that the harvest will have devastating effects on the environment, the animals that rely on the environment for sustainability, and climate change. Thank you for your time.
