Comments:

After reviewing all the alternatives, Alternative E will provide the best opportunity for most Montana residents to recreate and would allow increased timber production. Alternative E will also provide an economic benefit to the State as increasingly more out of state people are coming to Montana to recreate. Alternative E is the only one that would open up areas to motorized recreation if the HPBH WSA was released by Congress. We should be striving to create more opportunities for people to enjoy our public land, not less. Why is it that every forest plan or travel plan always ends up closing more trails or areas for motorized recreation and never creates more opportunities? This is totally wrong. As someone who enjoys motorized recreation, I too value our land, our trails and our wildlife. As our area continues to grow we need to strive to provide more land available for recreation, no recommended wilderness and that is just what Alternative E accomplishes.
