Comments:

Hello,

My name is Sean Knutson and I ride the areas that are looking to be designated wilderness areas here on snowmobile. We come to stay in West Yellowstone and support that town with \$4-5,000 dollars a winter only because the variety of options of places to ride. We can usually find fresh snow because it is a bigger riding area. We stopped going to Cooke city because the riding area is so small there is no unriden on snow within three days of fresh snowfall. If these areas close we will probably look at going to a different state to ride.
