Comments:

We are writing to protest the Prince of Wales Landscape Level Analysis project. It is disturbing that the Forest Service continues to leave the public in the dark about the site details. As you have heard numerous times, large cut such as these harm those closest to the land - subsistence hunters, fishers, recreator and tourists. Once again, the Forest Service should drop old-growth timber sales, which offer little benefit to Southeast Alaska's economy, and focus on restoration, stewardship and recreation projects.
