ur comment letter:

I support the wilderness recommendations in Alternative D of the Revised Draft Forest Plan, but the entire 230,000 wild, roadless acres of the Gallatin Range as Recommend Wilderness must be added in the final forest plan. The following three points also expand on the importance for the wild Gallatin Range.

The plan should prohibit all motorized and mechanized uses, and any other activities not consistent with wilderness protection, in the Recommended Wilderness areas so as to preserve their wilderness qualities until Congress acts on the wilderness recommendations.

The plan must address the issue of human and pack animal feces contamination of lakes and streams on the Beartooth Plateau in the Absaroka-Beartooth Wilderness.
