Phone: (907)612-1785

Comments:

I am adamantly opposed to approval of this project as an Alaskan resident and US concerned citizen. My father worked in the timber industry and would be adamantly opposed to this project.

It does not comply with NEPA in substance nor in letter of the law by hiding specific information as to location of project.

It does not support but instead is in conflict with subsistence hunting, fishing and the livelihood of the population of Prince of Wales Island

It is in direct conflict with the most basic principles of the survival of the planet and our life on it
