Comments:

As a Lifelong commercial fisherman and Alaskan resident I feel that this sale will leave Alaskan residents on the bad end of this sale. We will be impacting the ecosystems that support the resources that sustain the region while only providing a few local jobs for a short amount of time. The points will again end up in the hands of the few while taking profits out of the hand of the many. This is bad economics through and through. Please consider the hidden costs of this timber sale.

Thank you,  
Charles
