Comments:

I would like to object to this process of asking for comments without a plan of where logging will occur. This is not appropriate and underscores the fact that you are out of sync with the public. Many SE Alaskans would like to see you proceed with recreational development but not as a cover for continued unplanned logging. POW has been overharvested. You are not fulfilling your mission when you destroy wildlife habitat at the rate that you are on POW. Please, you know what proper management looks like and this POWLA plan is not it!

1. Please end all logging and stay away from old growth habitat.
2. Focus on restoration of overlogged areas.
3. Focus on recreational opportunities by building cabins and shelters for the public.
4. Quit giving lip service to local cottage industry opportunities....you are not an employment agency. The future of the Tongass is recreation and tourism
