You are "pleased" to announce that you're moving forward to cut down old growth forests? Aren't you the Forest "Service". Am I reading that correctly? For what.... toilet paper? wrapping paper? cardboard boxes? Cutting down old growth forests is a disservice to the community and to the environment. How many homes are you destroying? Do you know many creatures live in those homes? How much carbon do those trees absorb? Plenty for sure but the despicable people running the EPA these days don't even care poisoning our planet with chemicals let alone care about destroying a forest that absorbs few billion tons of carbon. Stop doing the bidding of the minority and think of the planet.
