Comments:

I am not in favor of any logging taking place in the Tongass Forest. I am tired of reading about one lost species after another due to loss of habitat. I am also tired of the very government agencies entrusted to protect our wildlife and forests continue to sell out for money. It is pathetic, and I believe there is a national movement underway that will ultimately bring about critical management reform to these agencies. The National Environmental Policy Act and the Public Trust Doctrine are meant to protect our forests and wildlife.
