Comments:

I am writing to urge you to implement the Gallatin Forest Partnership Agreement. As someone who has raised a family in Livingston, I want to ensure that my sons and daughter and their children will have the same chance to enjoy the wilds of Montana. I have hiked, backpacked, fished, skied, biked, and reinvigorated myself in the surrounding CGNF. I feel that the Partnership Agreement best shares this amazing resource so others with varying interests will be able to enjoy it going forward. And, although an avid mountain biker, I urge you to manage recommended wilderness just like designated wilderness and not allow mountain biking, let alone motorized use, in recommended wilderness - we need to protect those extra special areas. Thank you.
