Comments:

I support recommended Wilderness for the Gallatin Absaroka-Beartooth Area, The Crazy Mountains, The Gallatin and Madison Ranges and all other recommended wilderness management because I am a native Montanan that expects our public lands to be easily accessible, respected, and untouched by government entities that are willing to subject our lands for capital. I strongly advocate for all of Montana Wilderness Association's recommendations to benefit MT public lands. These lands were allotted to the public to not be touch and used for recreational purposes, and Montanan people expect to deserve to keep them for those reasons. I specifically have feelings towards the Gallatin and Madison ranges, where I hike, hunt and fish on a weekly basis. I have great memories in these places and I want to be able to show those places to future generations. As soon as we give a little, a lot will be expected, so holding onto what we have already been given is incredibly important to the people of Montana and the rest of the country. I use these lands to fish, hunt, ski, run, and recreate 12 months a year and me and my fellow public land owners are genuinely in love with the land and are grateful for what we have, and that should not be taken away or sacrificed to save a buck. Please listen to these comments and take them to heart, because any sacrifices to our land will be taken to heart by each and every Montanan.
