Comments:

I have spend many memorable days in the Crazy Mountains. I have backpacked with my husband, and later children (many times), my sisters (3 times) and several different groups of friends. When my sister from Boston asked to experience one of the most beautiful and wild places in Montana, we went to the Crazies. When my son, now an adult, comes to visit he requests a trip in these mountains.

Please fully protect the wilderness characteristics of the Crazy Mountains (Alt D). I ask if you could protect the entire unroaded area, with no machines, no roads, no mineral exploration or new trails allowed.

Also, please protect the Pryor Mountains as recommended Wilderness, maintain the boundaries of Lionhead and retain the recommended Wilderness areas for the Absaroka Beartooth and add Dome Mountain, Emigrant Peak and Chico Peak

Thank you for your consideration,  
Tamara Blank
