To whom this issue concerns - most importantly to whom will be making decisions about our precious wilderness.

As a Montanan (born and raised) I support plan C. We need to have more protected areas, while guaranteeing places for people to get at and enjoy this beautiful place we call home. Focus on Hyalite as an integral part of Bozeman's summer and winter recreation as well as our main water supply should be a priority. While the dreamer in me wants to push more wilderness I understand the dynamic of this state and think option C is the best(?something?)(?something?).
