Custer Gallatin Forest Plan Revision

Comment on the Draft Plan

Dear Supervisor Erickson and Planning Team,

The Custer National Forest has a wide variety of valuable resources and areas that mean a lot to me. I am very interested in keeping access open to our climbing areas and primitive and wilderness areas around these sacred places. I want to talk about two important parts of my uses of the Custer national Forest: Climbing areas and the Absaroka Beartooth Mountains. I utilize both of these areas resources a lot and want to see their protection and designations endure for years to come. I really enjoy the quality(?something?) at Bear canyon practice rock and the gallatin canyon. I also love the feeling and natural sounds at these places, and would like to see this continue. I also have really enjoyed the extremely primitive wilderness found while backpacking in the Absaroka Beartooth Mountain Range.
