No more land to be stolen from Idahoan's. This is ridiculous. Idaho is here for everyone to enjoy not be taken and only to be utilized by the very rich. We object to any United Nations people telling Idaho how to manage their state. Idaho is beautiful and needs to be enjoyed by all and not made wilderness so a few elite people can take over. We will not standby and watch this takeover of precious Idaho. We citizens demand this to cease and decessate at once. Idaho is our state and does not belong to an elite few. We demand our state back and no more wilderness to be preserved by these United Nations take overs. We have had it with the Feds trying to run our beautiful state. Stop the insanity and let Idahoans enjoy their own state. We have had enough Federal interference in Idaho. We the people are taking our state back.
