RE: Proposed Wilderness.

I'm a property owner adjacent to the proposed wilderness area.

I feel this would adversely effect my property by the lack of support that comes with wilderness during a forest fire. We need the support that the national forest brings.

It will also limit the way we access the adjacent national forest . My cabin is off silver creek , and has been there for forty years . I have owed it for fourteen years .

I'm against the wilderness proposal in the silver creek drainage.
