Comments:

As a property owner in Stanley, Idaho, I strongly oppose the proposition to increase the Wilderness area in the Salmon Challis National Forest. The Town of Stanley is extremely dependent on the tourism industry. If we continue to block access to the forests we love in the area, tourists will stop coming and the business owners will suffer tremendously. We already have the White Cloud Wilderness area, we do not need anymore. Please do not take away our rights to access the forest and enjoy it as we see fit.
