I would like you folks know that your plan to ban llama hiking in your forests is based on incorrect info and is a bad punitive plan, who's main purpose is to protect the horse packers/hunters from having to share the trails. This is REALLY wrong headed and everyone knows it. Please stop this terrible plan, llamas in no way spread diseases to the wildlife, they are in fact more resistant to a lot of commuicable diseases than horses,. You are relying on BAD science and using it to legitimate PARTISAN actions We disapprove in the strongest possible terms!
