First name: Earl

Last name: Frounfelter

Organization: Earl Frounfelter

Title:

Comments:

Because the federal government is currently in the hands of a criminal cabal calling itself the Republican Party, I assume any change in federal designation to any lands controlled by the government will be in order to direct profit to the rich corporations and individuals that own and operate said criminal cabal. As such these changes will, of course, be destructive to the lands in question and harmful to any living creatures that live on or enjoy the beauty of such lands.

Therefore I am writing to oppose any changes to any public lands as long as such changes are backed by the greedy and conscienceless crooks now running the federal government.
