I support Alternative 1. We should not open the Tongass National Forest to logging. These national forests belong to ALL Americans, and Americans are fighting to protect their natural areas and their environment. Trees are a vital part of the fight against climate change-- we should be fighting to protect all of them that we can. <https://www.cnn.com/2019/04/17/world/trillion-trees-climate-change-intl-scn/index.html>
