To who it may concern

Please do not allow logging on National Forest Lands. This will damage the area immensely and the land will be unusable not just for the immediate time but for the future also for a very long time. The wood is not needed. There are plenty of private wood lots that can supply the wood.

This is a fantastic area and I enjoyed being in the woods a number of years ago and plan on returning to a beautiful area without logging intruding on my experience.

Thank You

Adam Pilarski
