Comments:

logging hurts all other resources, it hurts wildlife, wilderness, aesthetics. save this site and protect it to the fullest. our kids deserve no less. our presen selfish govt appears to want to use up everthig so that nothing on earth is left for our kids. what a selfish greedy idea. i oppose changing from roadless. i do not believ tongass shoudl be exempted from roadless rule. i do not want chugash invaded and logged to death either. dont log it. those trees are providing immense climate change help to us. they should not be logged. the wildlife cant survive when the trees are cut down. they rely on treesw for food, lodging, etc. save tghe trees save the roadless area at tongass chugash.
