Comments:

Dear Sirs/madames,

I very seldom write concerning issues, but I feel this is very important. I urge you to uphold the Roadless Rule and conserve key areas of the Tongass, including the highest quality salmon-producing watersheds within the Tongass.

Once these treasured areas are decimated. it will never be the same. We have learned many times over the years that logging old-growth and temperate rain forest is not good for the environment or for society.

Please do not log these areas. We do not have many areas left that are protected. Save these for future generations.
