Proposed Tongass National Park Alternatives

Citizen here. Do not open this pristine forest up to logging and development. How many truly wild areas are left in this country? How many have been untouched by human interference? We need our wild lands. We need our forests. We need these areas to stay untouched.

"Alternative 1 (PREFERRED!!) takes no action and would leave all of Alaska under the 2001 Roadless Rule, including the Tongass National Forest."

This is the ONLY course of action.

Concerned Citizen,

Cara Snyder
