First name: Duncan

Last name: Kerst

Organization: Zimmerman Gunsul Frasca Architects LLP

Title:

Comments:

I lived in Alaska from 1977 to 1995. Please preserve the Tongas roadless Rule. Please preserve old growth timber stands. Please require all logging to meet Forest Stewardship Council (FSC) requirements. Please use the example of the Ellsworth Creek Preserve Located in the Willapa Hills of Washington for active restoration. Forest stands are actively Thinned to promote forest growth and the development of structural complexity. This forest is managed by the Nature Conservancy. It provides logging jobs and FSC timber to the NW mills for CLT structures. please contact Ryan Haugo at TNC. ThanksDuncan
