Comments:

My whole extended family implores you to stay with Alternative 1 - TAKE NO ACTION TO CHANGE THE ROADLESS RULE protecting this priceless wilderness that belongs to ALL Americans, forever.

Besides, research shows that similar logging on public lands often costs taxpayers far more than any revenue earned.

Frankly, we are dismayed that this Administration is hellbent on destroying so many of America's magnificent wilderness areas and sacred Native sites for short-term corporate profit. The voters are watching your decisions carefully.

Sincerely, Dana Mark, Kent Steinert and sons
