No logging, roads, mining, or other damage to the Tongass National Forest! NO! Just NO! STOP IT! Are you retarded, or something?! You're going to get us all KILLED! Both the air purification of the greenery and the carbon sink of the soil itself are essential to ameliorate the climate crisis and promote our very survival! LEAVE THE FORESTS ALONE!!! Just STOP IT! No "development" of any forests! NO!!!!!!! You have NO RIGHT to get me and my baby brother KILLED with your idiotic, shortsighted, venal, selfish, narcissistic behavior! We won't let you - AND WE VOTE!
